THE 12-WEEK PROGRAM.

WHY THIS ISN'T ANOTHER COURSE

Most programmes teach a concept and leave you to judge whether you executed it. Here the concept taught on Monday is what your chart measures on Tuesday – **the curriculum and the instrumentation are built by the same person**. Every metric comes out of your own log.

- ▶ The full SweepLogic Arsenal is included – all eight indicators plus both add-ons, with updates for life.
- ▶ Ten seats, never more. A two-hour session divided ten ways still means screen time.
- ▶ The Week 12 rubric is published in Week 1. Nothing at the defence is a surprise, and nobody fails out.

WHAT THIS IS NOT

Not a signal service – no trade calls are given. No profit target, no win rate, no income claim, and no representation that any plan will be profitable. Not personalised investment advice. Trading futures carries substantial risk of loss and is not suitable for every investor.
